QUAKE RENDS OLD INCA CITY
CUZCO, PERU, LISTS 50 DEAD.

A VIOLENT EARTHQUAKE ROCKED THIS OLD
CITY TODAY, TOPPLING ANCIENT BUILDINGS
INTO THE NARROW COBBLED STREETS, AND
DESTROYING MANY HOMES.

Handprinting of Abraham
Brothman taken
5/22/50.

John A. Murguly Jr.
701. N.Y.C.

"The form of a sugar refinery follows a vertical arrangement and accordingly requires means for vertical travel. In addition there are also a number of platform elevators which provide for freight traffic and the convenience of visiting bondholders. Grain elevators and flour mills are fitted with manlifts. Every state west of the Ohio River is free. Experience of the past 25 years with seven manlifts has shown that there are required a few years of education. An ordinary sugar refinery employs 600 to a 1000 men. The capital outlay is a fraction of the price. Less space is claimed for the filter. This has been developed by the National Carbon Company 30 E. 42nd St., New York, N.Y. This is written in the city of Philadelphia, Pennsylvania. I live at 6823 Kindred St., formerly at 5032 Boudinot St., both in Philadelphia. Harry Gold 5-19-50

Hydrogen peroxide was first prepared by Thenard in 1818. Principally 3% for pharmaceutical usage. To 27.5% in 1925 and to 35%. Conversion of BaCO_3 to BaO — reaction of the BaO_2 with H_3PO_4 and H_2SO_4 . In two other is NH_4HSO_4 . The KHSO_4 is regenerated.

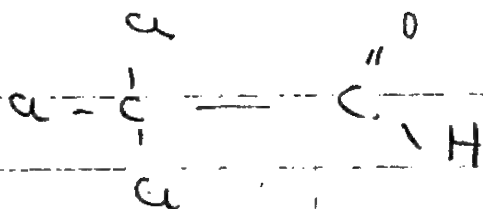

Other "per"-oxygen compounds include $\text{Na}_2\text{B}_4\text{O}_7$, NaHCO_3 , CaO_2 , ZnO_2 , MnO_2 , Urea peroxide, $\text{C}_6\text{H}_5\text{C}(=\text{O})\text{O}-\text{O}-\text{C}(=\text{O})\text{C}_6\text{H}_5$

In the refining of sugar H_2O_2 increases the life of bone char filters. This quality also has application to certain other metal plating baths. In dyeing textile with Vat colors such as, etc.

CHRYSLER DEFENSE CORPORATION

Henry A. Goldwynne, Pres.
Abraham Brothman, Vice Pres.
Arthur L. Seher, Sec'y.

DIRECTORS: The Officers

CR 178 1 October 19, 1942

170, 8th Avenue
Engineers

NEW YORK CITY, N.Y.
420 Lexington Ave.
(Room 1858)
Graybar Building

HISTORY

This corporation is reported to have been organized under New York State laws during June of 1942, but records are not being searched for exact corporate details.

Henry A. Goldwynne is 50, divorced, a native of England, and reported not to be a citizen. For a period prior to 1921, he was a purchasing agent in Toronto, Canada, for foreign concerns. He started individually as an importer of magnesite, magnesite, mica, chiefly from India. During the year of 1925, he organized the Super Refractories Corporation, the name of which was later changed to the Henry A. Goldwynne, Inc., in 1926. That company is now dormant, but the charter continued to be retained. Goldwynne continued to operate in his individual name until June 4, 1932, when records of that date show that he filed a voluntary petition in bankruptcy, placing liabilities at \$118,650., and no assets. During September of 1932, he received his discharge from bankruptcy. Shortly thereafter, he was instrumental in the formation of the Goldwynne Chemicals Corporation, also at this address, in which concern he continues as president and principal. That concern does not submit a balance sheet for publication, but retires its trade obligations in a satisfactory fashion.

In addition, Goldwynne is reported to own a large block of the Fullite Refractories Company, Inc., of Shelton, Conn., and also owns stock in the DuPont Chemical Company of Seymour, Conn. Goldwynne is also president of the Pulverized Metals Corporation, which maintains its New York City headquarters at this address, but which was incorporated under Connecticut laws on December 20, 1940, with an authorized capital of \$25,000. Definite details are not available on that concern, although Goldwynne stated that at the present time, the concern represents an investment of \$75,000. Goldwynne stated that the Pulverized Metals Corporation has received loans from the Goldwynne Chemical Corporation from time to time. Goldwynne further reports that he has recently become principal of the Corraza Industrial Santa Clara of Cuba which concern maintains headquarters in Cuba, and holds title to several magnesite mines on that island. Details regarding the amount of investment, however, were declined.

Abraham Brothman is 30, married, and native born. He is a graduate of Columbia University, Class of 1934, and received a chemical engineering degree. Prior to becoming an officer in this corporation, he was employed by the Hendrick Manufacturing Company of Pennsylvania. This represents his first venture as a principal.

Arthur L. Seher is 22, married, and native born. He is a graduate of U.C.W.I., Class of 1940, and also has a chemical engineering degree. He, too, was employed by the Hendrick Manufacturing Company of Pennsylvania until being admitted as an officer of this corporation. Seher stated that he and Brothman are also consultants to the War Relocation Authority, and have patents for the manufacture of synthetic rubber process.

SCOPE OF OPERATIONS

Operate as chemical engineers and manufacturers of processed chemicals and equipment. All of chemical products are handled, but the principals are food and synthetic rubber materials are stressed. In addition, the concern is reported to operate as consulting engineers for the International Engineering Company of Dayton, Ohio.

At the present time, this corporation is erecting a chemical plant, designed by the subject corporation, in Connecticut. Headquarters, however, continue at this location, although a branch office is maintained in Connecticut.

MENT quarters, on the eighteenth floor of this modern thirty-two story office structure, maintained in excellent repair, and located in the midtown business section of New York City.

FIRE RECORD: No fires reported for the subject company. However, on June 15, 1927, while trading individually, Henry A. Golwynne suffered damages of approximately \$55,000., as a result of a fire at Pier #31, Erie Basin, foot of Van Dyke Street, Brooklyn, New York. He states that \$55,000. was received from the insurance company in settlement of this loss.

FINANCIAL INFORMATION

Interviewed on October 15, 1942, Arthur D. Weber furnished the officers as listed, and stated that this corporation operates as a division of the Golwynne Chemical Corporation, which corporation makes most of the purchases for the subject enterprise at the present time. He stated that since operations have only been underway for a few months, a detailed balance sheet, and operating figures, would not be available; however, he did state that the enterprise is conducting an active volume at the present time, and that operations are proving satisfactory. Weber also said that the corporation, at the present time, is erecting a plant in Connecticut, which upon completion will be valued at \$500,000. The capital is being supplied largely by the Golwynne Chemical Corporation, according to Weber.

-----C-----

According to Weber, this is a direct subsidiary of the Golwynne Chemicals Corporation, and is being operated as a division thereof. However, it has been incorporated separately. Operations have only been underway for a few months, and although an active volume is reported, specific details are not yet available on operations.

FACTORS

The principal purchases are reported to be made by the parent company.

SUMMARY

THIS NEW ENTERPRISE IS REPORTED TO BE A SUBSIDIARY OF A CORPORATION DATING BACK TO 1931, AND ALTHOUGH AN ACTIVE VOLUME IS REPORTED, FINANCIAL DETAILS ARE NOT AVAILABLE AT THE PRESENT.

10-19-42 (98) d

Period 1 - 1941, 11 - 1942, 11 - 1943
 1942 1 - November 25, 1942

REPORT -

SUMMARY -

Available information indicates this established business has made some progress in recent years. Detailed figures, however, are essential for a close understanding of the present financial condition.

DIRECT INVESTIGATION -

On November 14, 1942, Henry A. Deligane, President, stated that sales thus far this year compared favorably with those transacted during the corresponding 1941 interval. He stated liabilities consist of trade bills not yet matured together with normal accruals and a moderate amount owing to the President, which he stated was afforded a wide margin of coverage by sizable cash balances and accounts receivable. He declined to furnish detailed figures for publication.

BANK INVESTIGATION

Utilizes the facilities of any local bank where accommodation in the past has been granted. Small accounts in connection with letters of credit on a secured basis at own option. The depository also occasionally discounts bills receivable and also occasionally purchases foreign drafts. All accommodation is granted on a secured basis at the option of the corporate officials. The account is favorably regarded.

TRADE INVESTIGATION

A trade survey completed on October 1, 1942 elicited the following recent experiences:

	<u>AMOUNT DUE</u>	<u>CASH</u>	<u>LAST DUE</u>	<u>TYPE OF BILL</u>	<u>PAYMENTS</u>
1.	1,900	---	---	Net cash	Discount
2.	1,700	---	---	1-10-30	Discount

12.	200	---	---	Net cash	---

11-23-42 (57) (d)

SECTION 2 - FINANCIAL STATEMENT
862 1 NOV 23, 1942

FINANCIAL INFORMATION

During its eleven existence, this corporation is reported to have built up a substantial annual volume and investigation indicates that operations in recent years have been conducted on a profitable basis.

Detailed balance sheets have not been submitted for publication, but the opinion prevails in outside quarters that net worth is in six figures. Those consulted, however, are of the opinion that detailed figures are essential for a close understanding of the financial condition of this business.

On November 14, 1942, Henry A. Golynne, President, declined to furnish detailed figures, stated Tangible net worth is in six figures and that liabilities consist of trade bills not yet due, normal accruals and a moderate amount owing to the President. He stated that indebtedness is fully covered by sizable cash balances and accounts receivable. He stated the corporation operates principally on own capital with only infrequent and occasional advances from the President. No bank support is not utilized except in connection with the purchase of foreign drafts and the occasional discounting of notes receivable. In connection with the latter transactions Golynne stated that the corporation puts up collateral at its own option. This was confirmed.

Golynne stated that sales thus far this year compare favorably with those transacted during the corresponding 1940 interval and stated that annual volume slightly exceeds \$1,500,000. Available information indicates this established business has made some progress in recent years. Detailed figures, however, are essential for a close understanding of the present financial condition.

BOARD OF DIRECTORS: The officers comprise the Board.

FRANK L

Henry Alexander Golegume, PC, divorced is a native of England and continues to be a British subject. At an early age, he moved to Toronto, Canada, from which point in 1911 he joined the Canadian army resigning in 1919 as a Major, having been decorated through award of the Military Cross. He began business as a principal operating individually as an importer's representative for various empire importers of magnesite, sillite and mica, most of which importers were located in India. During 1925 Golegume moved to the United States where he settled in New York City continuing to conduct business individually functioning as an importer of magnesite, sillite and mica, principally from India. Shortly thereafter he became the principal at interest in Super Refractories Corporation, which during 1926 changed its name to Henry A. Golegume, Inc. Golegume states that that corporation functioned for but a relatively brief period, that the corporation continues dormant having virtually no assets and no liabilities. He states he continues the principal at interest in that nominally capitalized corporation, which was incorporated under New York laws.

Golygme continued to conduct business individually, but with the advent of the depression years volume declined and his affairs became unprofitable. Records of June 14, 1932 show the Henry A. Golygme file a voluntary petition in bankruptcy placing liabilities at \$118,600 with no assets. He received his discharge from bankruptcy on September 21, 1932 and it is reported that creditors received nothing on their claims.

Henry A. Golynne, meanwhile, on July 3, 1941 organized and became President of Seling Magnesium & Chemical Corp., the subject corporation, which about August 12, 1941 changed its name to the present corporate style. This corporation took over the activities previously conducted by Henry A. Golynne individually.

Henry A. Goligmsne also had some outside interests while conducting his individual operation. Having in 1915 purchased a proprietorship conducted under the style Mogul Mosaic Co., manufacturers of mosaic products at 2313 East 42nd Avenue, New York City, which business he incorporated on February 13, 1919 as Plastic Arts Corporation, which located headquarters at 405 Lexington Avenue, moving its printing plant to Pier 41, foot of Van Dyke Street, Brooklyn, N.Y. Henry A. Goligmsne was President and General Manager of that corporation which reported to some discontinued business during the latter part of 1931 and it is stated by Goligmsne that all creditors were paid in full.

Henry A. Goligons is also an officer in the following corporation: Fullite Refractor Inc. incorporated under Connecticut laws on November 23, 1926 with an authorized capital of 5, shares of no par value Common stock, which manufactured "Turbo bricks and fire brick at 167 Bond Street, Milten, Conn. Henry A. Goligons is Vice-President of that corporation. December 31, 1941 figures show a payable net worth of \$61,452.97 and an unbalanced condition characterized by a heavy debt position. Principal indebtedness of the corporation is stated to be to its stockholders.

Lullite Refractories Co. has one subsidiary, namely, Lervel Products Co., Ltd., Niagara - Ontario, Canada. That Canadian corporation is stated to have been organized several years ago to serve the Canadian customers of Lullite Refractories Co. and it is stated to have paid in capital of \$5,000. Late detailed figures are not available.

Blackwell (Cont'd)

Rufert Chemical Co., Inc. was incorporated under Delaware laws on February 18, 1931 with authorized capital of 1,200 shares of no par value Common stock and 1,000 shares of no par value Preferred stock. That corporation manufactures that is known as nickel catalyst which is used for hydrogenating oils. Henry A. Golwynne is the President of that corporation which maintains headquarters at 67 Franklin Street, New York, N.Y. Its recent financial statement is available.

Industrial Raw Materials Corporation was incorporated under New York laws on July 7, 1940 with an authorized capital of 150,000 Common stock of \$50 par value. Henry A. Golwynne is President of that corporation which exports paraffin waxes, oils, chemicals and drugs, maintaining headquarters at 570 Lexington Avenue, New York City. No financial statement available on that corporation and the paid in capital is \$5,000. There are stated to be occasional inter-company merchandise transactions between the two corporations on open terms with monthly liquidation of accounts reported.

Pulverized Metals Corp. was incorporated under Connecticut laws on December 20, 1940, and has its pulverized powdered metals at South Main Street, Waterbury, Conn. Henry A. Golwynne is President and Treasurer of that corporation. No recent financial statement is available.

Salisbury Mining Corporation was incorporated under New York laws on May 19, 1941 with an authorized capital of 200 shares no par value Common stock. The activities of that corporation have not been defined, but Henry A. Golwynne is reported to be the principal at interest. That corporation maintains headquarters at 420 Lexington Avenue, on the premises of the subject. No recent financial statement is available and the corporation is reported to be but nominally capitalized.

Compania Industrial Santa Clara de Cuba, which according to Henry A. Golwynne was incorporated under Cuban laws during 1941 and of which corporation Henry A. Golwynne states he is President. Henry A. Golwynne refers to the corporation as Golwynne Industrial Cuba Corp. which he still operates a manganese plant at Santa Clara, Cuba. The corporation is also reported to hold title to several manganese mines in Cuba around Santa Clara. No recent financial statement is available but according to Golwynne, principal assets are of a fixed nature consisting plant equipment.

Chemurgy Design Corporation, was incorporated under Connecticut laws during 1942. That corporation operates as chemical engineers and manufacturers of processed chemicals and equipment at 420 Lexington Avenue, New York City. All types of chemical products are made but the principal items are food and synthetic rubber materials. Henry A. Golwynne is President of that corporation. No recent financial statement is available, but the corporation reported that currently the concern is constructing a plant in Connecticut which the principal will be valued at \$500,000 upon construction.

Inter-company relations between Golwynne Chemicals Corporation and the above enumerated affiliated units are roughly as follows: Golwynne Chemicals Corporation owns the entire Preferred stock of Pulverized Metals Corp., but there are stated to be no inter-company relations such as advances, guarantees, endorsements or merchandise transactions between Golwynne Chemicals Corporation and Pulverized Metals Corp. and there are also reported to be no stock ownership between Golwynne Chemicals Corporation and Fullite Refractories Co., Inc.

Products Co., Ltd.; Sulfert Chemical Co., Inc.; Industrial & Materials Corporation; Salisbury Trading Corporation and the subject, Golgynne Chemicals Corporation. has not cashed advances to and purchased raw material from Corona Industrial Santa Clara of Cuba known as Golgynne Chemicals Cuba Corp., but there are no inter-company guarantees, either on stock ownership. Golgynne Chemicals Corporation is reported to make advances to Chemurgy Design Corporation, but it is stated that there are no inter-company guarantees, either on merchandise transactions or stock ownership between the two enterprises.

Henry A. Golgynne states that he owns 51% of the outstanding capital stock of Lullite Refractories Co.; Sulfert Chemical Co., Inc.; Industrial & Materials Corporation; 100% of Pulverized Metals Corporation; 100% of Salisbury Trading Corporation; 100% Corona Industrial Santa Clara of Cuba referred to as Golgynne Chemicals Cuba Corp.; 60% of Chemurgy Design Corp. and 100% of the outstanding capital stock of Golgynne Chemicals Corporation.

Winifred B. Russell is reported to be about 34, single, native born and has served as a private secretary to Henry A. Golgynne over a period of many years.

HISTORY

This New York corporation was chartered on July 3, 1921, with an authorized capital of 10 shares of no par value common stock. The original corporate name of Golgynne Magnesite Lignesia Corp. was changed to the present corporate style during August, 1921.

MATERIALS OF PRODUCTION

Importers and wholesalers of magnesite which is obtained from the affiliated Cuban corporation, Corona Industrial Santa Clara of Cuba, popularly known as the Golgynne Chemical Corp., Santa Clara, Cuba and also from Magnesite Syndicate of England, Ltd., London, Eng. A reserve supply is stated to be maintained in a warehouse at South Jersey, N.J. Lullite reported to be imported principally from the U.S. Sales are made on cash and sight draft. Day terms to industrial concerns located North of United States. All present sales are done by Government regulations.

Occupies an approximate 1,100 square foot floor area. There are stated to be eight steel employed.

LOCATION & BUILDING

Rents space on the eighth floor of a thirty-two story office building which covers a block and is in excellent repair. FIRE LOSS: No fire reported for this corporation. Henry A. Golgynne while operating individually on June 13, 1917 sustained fire loss of approximately \$3,000 as the result of a fire at Pier 31, Pier 31, foot of Van Dyke Street, Brooklyn, N.Y. He had a \$3,000 settlement on the fire.

Lullite Refractories Co. of which Henry A. Golgynne is Vice President, and which is located 167 Canal St., Boston, Conn. on July 17, 1920 at 9:00 P.M. sustained fire loss as result of fire caused by the breaking of one of the heating furnaces, causing \$5,000 damage. On Jan. 6, 1941 a fire of undetermined origin resulted in a loss of \$10,000 and a third fire occurred on January 12, 1941 which resulted in a loss of approximately \$50,000. The amount of settlement effected in these fires has not been ascertained.

Pulverized Metals Corp. of which Henry A. Golgynne is President and Treasurer, and which is located on South Main Street, Centerbrook, Conn. on March 17, 1941 as a result of a fire of undetermined origin, caused by an explosion, resulted in a complete loss to the building and contents. Details concerning the extent of loss was not made available.

Robert R. Adams, Pres.
Henry A. Golvynne, Vice-Pres.
Charles F. Bailey, Sec'y.
C. Leslie Hopkins, Treas.

DIRECTORS: The officers comprise the Board.

CD 27 68 May 8, 1942

HISTORY

A Delaware corporation formed February 28, 1931 with a capital consisting of 1,200 shares of common stock, no par value, and 1,000 shares preferred stock, also no par value. The company moved here in 1933 from 1922 East 42nd Street, New York City.

A division of the financial interest has not been obtained but it is understood that the stock or at least a large portion of it is owned by the Seymour Manufacturing Co. which is also at this address. That corporation was formed on May 6, 1890 and has an authorized capital of \$1,000,000 and as of June 30, 1940 had a surplus of \$3,392,399.

Robert R. Adams is vice-president and general manager of Seymour Products Co., this city, which is closely allied with and owned by the Seymour Manufacturing Co. Henry A. Golvynne, 51, married, and is reported to be a chemist by profession. He is a native of Toronto, Ontario, Canada and during 1921 became an importer of magnesite, magnesite and mica. He is also an officer in Fullite Refractories Co., Inc. of Shelton, Conn. Charles F. Bailey is an attorney and a member of the law firm of Gleason, McLanahan, Herrist & Ingraham at 40 Wall Street, New York City. C. Leslie Hopkins, 71, married, and is secretary of Fullite Refractories Co., Inc. and is private secretary of Franklin S. Jerome who is one of the principals of the Seymour Manufacturing Co.

PRODUCT OF COMPANY—NICKEL CATALYST

Manufactures what is known as nickel catalyst, and it is used for hydrogenating oils. Sold are throughout the United States to a limited number of customers. It occupies space in building forming part of the Seymour Manufacturing Co. plant. Also space in a brick building in normal repair, and adjacent on either side are brick factory buildings in normal repair. A sales office is maintained at 420 Lexington Ave., New York City.

FIRE RECORD: No fires reported.

FINANCIAL INFORMATION

In a recent interview, Harry A. Leigh, treasurer of the Seymour Manufacturing Co. declined financial details but said that the company was controlled entirely by the Seymour Manufacturing Co. and the equipment used by Rufert Chemical Co., Inc. was the property of the Seymour Manufacturing Co., and that the latter made purchases for the subject business in its name and carried the accounts receivable and handled all business details.

Rufert Chemical Co., Inc. is not listed as having assets at the office of the Town Clerk.

The extent of activities of this business are not known and neither have any details been submitted as to whether progress is being made. However, its affiliation with the Seymour Manufacturing Co. is a very favorable factor.

REMARKS

No purchases are made in its name and all requirements are obtained through the Seymour Manufacturing Co. which usually takes advantage of all discounts.

SUMMARY

DETAILS HAVE NOT BEEN SUBMITTED BUT FINANCING IS DONE THROUGH THE PARENT COMPANY WHICH IS A GOOD FINANCIAL INSTITUTION AND HANDLED BY WELL-KNOWN INDIVIDUALS.

N.Y.

5-9-42 (53)

JUNIOR, JOHN.

Mrs. Nickel Catalyst

New Haven County
87 Franklin Street

AD 20 63 January 19, 1943

On the above date, Harry A. Leigh, treasurer of the Seymour Manufacturing Co., stated that financial details are not available. He explained that this concern was not a general seeker of credit and therefore considered a balance sheet unnecessary. He stated that the Seymour Manufacturing Co. was continuing to purchase the raw materials. Also, he stated that affairs are continuing in good shape.

It was further learned that a sales office is still being maintained at 420 Lexington Avenue, New York City under the direction of Henry A. Gelineau who appears as vice-president of the subject concern.

The Seymour Manufacturing Co. is in sound financial shape and all bills are paid as agreed.

CD 20 68 October 8, 1942

HISTORY

A Connecticut corporation formed May 6, 1880 and at present the authorized and paid in capital is \$1,000,000. A statement of June 30, 1942 revealed a surplus of \$3,200,000.

Franklin S. Jerome is 71, married, and a native of Montville, Conn. of English descent. He holds the controlling interest. In 1889 he entered the employ of a bank in Norwich, Conn. but resigned in 1913 to locate in California where he conducted a large ranch. That business was sold in 1917 and he returned and became associated with the Seymour Mfg. Co. He has become a prominent figure in manufacturing and banking circles throughout the Naugatuck Valley and holds directorships in numerous manufacturing concerns in Connecticut. He is president of the Seymour Trust Co. of Seymour, Conn.

Bernard H. Matthews is 51, married, and has descended from one of the original founders of the corporation. He has been active in political circles and is a member of the State Legislature.

Arthur S. Wheeler is 45, married, and conducted an insurance business in Darien, Conn. before being elected an official of this concern in the early part of 1940. Earl B. Boies is 41 and is an official of the Seymour Trust Co. Harry A. Leigh is 50, married, and became associated with this concern in 1913 and was placed in charge of financial matters. Alton Wentworth is 51, married and has been with this concern for over 20 years. H. P. Wooster is a life-time employee of the concern.

Jerome, Matthews, and Leigh are also connected with several affiliated concerns which include the H. A. Matthews Mfg. Co., the American Crucible Co. Inc., the Mullite Refractories Co. and the Seymour Products Co.

The H. A. Matthews Mfg. Co. was formed under Connecticut laws on June 18, 1930 with a capital of \$1,000,000 consisting of \$200,000 in preferred stock paid in and \$800,000 in common stock of which \$200,000 is paid in. A financial statement is not submitted and an estimate of net worth could not be obtained.

The American Crucible Co. Inc. is a Delaware Corporation formed March 27, 1930 with a capital of 2,500 shares of no par value stock carried on the company's books at \$125,000.

Mullite Refractories Co. Inc. is a Connecticut corporation formed November 23, 1926 but a financial statement is unavailable and the net worth is undetermined. The capital is reportedly well over \$100,000.

Seymour Products Co. is a Connecticut corporation formed June 27, 1934 with an authorized and paid in capital of \$100,000 and the net worth is estimated at about that figure.

Inter-company relations consist of the sale of merchandise by the Seymour Mfg. Co. to the affiliates and on regular open terms with obligations being paid on a 30 day basis.

ordinarily manufactures nickel-silver, phosphor and other non-ferrous alloys with sales on a nation-wide basis. At present the firm is operating 100% on defense orders on a prime contract basis for the United States Government. Several large buildings are occupied in a manufacturing section, a short distance from the center. All the structures which are in normal repair and the premises are well kept.
FIRE LOSS: In March, 1938, a flood damage caused a loss of about \$150. In September, 1938 a hurricane caused approximately \$1,000 damage and no insurance was carried to cover these losses.

Assets

The following estimates based on the inventory of June 15, 1942 were submitted by Harry Leigh on October 7, 1942.

ASSETS		LIABILITIES	
Cash, Receivables & Gov. Bonds	\$1,500,000.00	Accts. Payable	\$300,000.00
Merchandise	1,500,000.00		
Total Current	3,000,000.00	Total Current	300,000.00
Eq. & Fix. & A.D.	2,750,000.00	Res. for Taxes	1,250,000.00
		Capital Stock	1,000,000.00
		Surplus & Unl. Pfts.	2,500,000.00
Total Assets	\$5,750,000.00	Total	\$5,750,000.00

There is no bonded indebtedness and all fixed assets are unencumbered. There is a proper reserve for taxes. There has already been a reserve deducted from fixed assets for depreciation of \$1,750,000. The sum listed under cash, receivables and government bonds, made up of \$1,000,000 in cash in bank which is kept in hand for deposits and this has been confirmed. The remaining \$500,000 is represented by about \$400,000 in receivables and the rest is invested in government bonds. No loans have been requested by the concern.

Although operating figures are not submitted, Leigh stated that the plant was working at full capacity on government work and operations were running profitably.

Those concerned with this concern have had many years experience and the trend has been unimpressive recently. This concern is well established and affairs are in sound condition.
